Leadership & Extracurriculars

Founder & President — HelpingMinds.ca

- Founded a non-profit organization supporting children's mental health
- Led awareness campaigns and fundraising initiatives
- Built partnerships with local community groups

2024 - Present

Executive Member — Community Helpers (Alberta Health Services)

2024 - Present

-
- Participated in a peer support program focused on youth mental health promotion and suicide prevention
 - Contributed to mental health awareness and reduced stigma around seeking help at Old Scona Academic High School
 - Trained in communication, self-care, stress management, and connecting peers to community supports

Volunteer — Chatter Social Skills Program, Khan Communication Services 2023 - Present
• Assisted children in developing communication and social skills in group programs
• Contributed 100+ volunteer hours in mentorship and activity facilitation

Co-President — Mathematics & Computer Science Club 2024 - Present
• Organized club-led math and coding sessions during club time
• Helped plan school-wide events and competitions to engage students in STEM

Team Member — CyberTitan School Team 2024 - 2025
• Specialized in Linux system security and hardening for competition challenges
• Contributed to team’s qualification into semi-final round in 2024-2025

Healthcare & Research Experience

Medical Shadowing — Misericordia Community Hospital, Covenant Health July 2025
• Completed 30 hours shadowing Dr. Surinder Kanwal, observing histopathology techniques and tissue staining for cancer diagnosis
• Gained exposure to gross pathology procedures including surgical specimen processing, margin evaluation, and lymph node dissection
• Observed diverse cases including breast and metastatic carcinomas, intestinal polyps, and gastrointestinal inflammation

Youth Summer Program Participant — University of Toronto, Faculty of Medicine July 2025
• Studied homeostasis and organ systems, exploring disease mechanisms when compensatory systems fail (dehydration, hyponatremia, kidney failure)
• Learned cardiovascular and neural physiology including blood pressure regulation, cardiac output, action potentials, and hippocampal memory consolidation
• Examined genetic diseases and chronic conditions including cystic fibrosis (CFTR mutations) and obesity management strategies

Additional Experience

Camp Counselor Assistant — YMCA Summer Camp July 2025
• Supported camp activities and supervised youth participants
• Facilitated recreational programs and team-building exercises

Skills

- Problem-Solving & Analysis — Strong performance in national math contests July 2025
- Leadership & Initiative — Founder of non-profit; executive role in school clubs
- Collaboration & Communication — Volunteer mentorship with children; teamwork in CyberPatriot
- Technical — Google Workspace, Python, Java basics, Linux/Networking fundamentals
